

Audition Tips and Information

What to bring and what to sing:

- ◆ 16 bars or 30-60 seconds of a musical theater piece that best shows your acting and singing abilities. The selection should be in the style of the role you are auditioning for. This means you should know the show and what role you think you would be great in. Then find a song that is similar to a song from the show sung by the character you want to play.
- ◆ If you don't have a specific show or role in mind, bring a song that shows us who you are.
- ◆ Your sheet music in the correct key and clearly marked where you will start and stop. Be prepared to sing the entire song in case we want to hear you sing more, but don't worry if we cut you off. It just means we have heard you sing enough to get a good idea of what you sound like, and sometimes that takes different amounts of time depending on the auditioner.
- ◆ Dress nicely but comfortably.
- ◆ Be prepared to dance, you may change clothes for the dance component if you'd like.

Here are a few things we look for in auditions:

- ◆ If you don't have a lot of experience, DO YOUR BEST. We look for performers who have a smile on their face and do their best.
- ◆ ENERGY!!!!
- ◆ Know what you are singing about. Who are you? Where are you? Why are you singing this? When does this happen in the show? Tell us the story through your song.
- ◆ Availability. You *must* be able to attend all rehearsals for the show you are auditioning for.

A few final tips:

- ◆ Look over the rehearsal and performance dates and let us know what you are interested in. You will have a better chance of being cast the more shows you are auditioning for.
- ◆ Have a positive attitude and enjoy yourself! You'll meet a lot of talented, fun people at auditions. We know it can be a frightening ordeal, but we want you to be amazing and are looking for the best parts of your performance, *not the mistakes*.
- ◆ Please arrive 10 minutes before your session.
